**LIFETIME

 ON BROKEN PARTS**

This series of robust forged Steel Clamps is designed for Pipe to Pipe or Pipe to Fittings. The WT Steel Clamps are electro galvanized, and assure fast and effective clamping.

The Butterfly Screws are made with Stainless Steel Balls, this eliminates scratching of the object to be welded and corrosion will not occur.

The Clamp is made of sink forged steel. This gives enough clamping force to comply with the demands for all the pipe dimensions within the WT Steel Clamps range of 25-355 mm (1"-14").

WT Steel Clamp can be used for the welding of steel pipes. Stainless Sleeves can be mounted on the WT Steel Clamp so it can be used for Stainless Steel, Duplex and other high alloy steel types.
